### *Does Water Have Memory?*

The healing and nourishing properties of water have intrigued us since the beginnings of human consciousness.

Here's a short video (less than three minutes) about a German study suggesting that water has memory--that magnified water drops exhibit radically different appearances depending on what they've been exposed to.

This research suggests that every body of water, from your glass of tap water to the oceans covering 71% of the globe, is a storehouse of information. If this is true, I wonder: what kind of influence does water have, subtle or profound, according to its history?

As a place of conscious, nurturing and restorative practices like Watsu, the
